## snapshot

Creative design professional with over 10 years experience in graphic and web design. Particularly skilled in creating elegant and effective graphics for companies of all sizes and industries. Technically proficient in Adobe Creative Suite and Microsoft products. Strong work ethic and able to perform individually or as part of a team.

## professional experience

April 2003 to May 2012

### **InfoMart, Inc.**

Atlanta, GA

**MEDIA ADMINISTRATOR** for a high-growth pre-employment background screening company. Developed and maintained public website and corporate intranet. Created customized client computer based training modules for company's software and online applications. Designed and produced print materials including brochures, advertising and blast emails. Served as company photographer.

Honors: Outstanding Peer Award, 2006. Team Player Award, 2003, 2004 and 2005.

---

July 1999 to April 2003

### **Hotplate Web Design, Inc.**

Atlanta, GA

**INTERACTIVE DESIGNER/PRODUCER** for a start-up graphic and web design firm. Conceptualized, designed, and produced professional websites for a variety of companies nationwide. Involved in the entire design process – from initial client discussions to final production.

---

June 1997 to July 1999

### **Global Environment & Technology Foundation**

Annandale, VA

**SITE DEVELOPER** responsible for the design, development, and maintenance of several environmental web sites and virtual private networks for clients such as the U.S. DOE, EPA, and NASA. Served as Webmaster for globeNet – a leading source for ISO 14000 information, and WENet – the World Engineering Network. Led team of designers, developers, and interns – managed daily operations and provided instruction, assistance, and overall project management.

---

April 1996 to June 1997

### **Onesoft Corporation**

Annandale, VA

**SITE DESIGNER** for a web-based software development company. Responsibilities included site design, HTML formatting, graphic design, and maintenance of several client web sites, including the Onesoft corporate intranet. Participated in the development of intranet/extranet software, including interface design, quality control and testing, and implementation of software with clients' web sites.
