

## The InfoMart Advantage

Dedicated customer service, innovative technology solutions and accurate information reporting - these are just a few of the reasons our clients have selected InfoMart as their background screening provider and why we've been named to Security Magazine's Security 500 and Workforce Management Magazine's 2010 Hot List of Employment-Related Screening Providers.

Since 1989, InfoMart has helped clients Get the Whole Story on their applicants and employees with our full suite of screening services, including criminal history information, credit and driving records, drug testing, and verification interviews of past employers and educational institutions for businesses worldwide. When you're ready for customized screening solutions, InfoMart is here to help you screen smarter.

## ADVANTAGE STUDENTS

Where Hospitals, Schools and Students Come Together

Easy for hospitals.

Easy for schools.

Easy for students.

**Advantage Students is  
student screening simplified.**

When you're ready to place or accept students for their clinical rotation, you need a fast and simple screening solution. InfoMart's Advantage Students offers you exactly that. Sign up, log in, and review results - it's that easy.

And with over 20 years of experience, InfoMart also offers unrivaled industry expertise. Our experienced staff works with participating hospitals, colleges, vocational schools and internship agencies to provide comprehensive background checks that meet the requirements of all parties involved.

# How does Advantage Students work?

Advantage Students works by connecting hospitals, schools and students through an easy-to-use, thorough and secure background screening process.

The hospital simply directs students to InfoMart's unique Advantage Students web portal. Via this secure website, students enter their information and select the hospital and educational institution that will review their completed background check. Once the student receives an email confirmation that his or her background check is complete, the results of the background check also populate the hospital's or school's Advantage Students application for review.

InfoMart.

- Students enter their information via a secure website
- Payment is made online by the student (or optionally sent to the school for payment)

- Background check is performed (turnaround time typically less than 3 business days)
- Student receives confirmation email when the report is complete

- Results can be viewed online by the student and a designated school official
- Information can be shared between the student, school and hospital if desired

In addition to being a simple online process, Advantage Students offers users the following convenient features:

- Customized student screening suited to hospital requirements
- Branded hospital or school launch page on Advantage Students portal
- Links to hospital or school websites for reference
- Hospital-specific instructions provided to students
- Flexible payment structures for students
- Expanded panel drug tests

The functionality built into Advantage Students makes sharing information between the hospital, school and student seamless, which makes for streamlined communications and a simplified screening process for all parties involved.
