Impact of Alcohol and Drug Abuse on the Workplace

Alcohol and Drug Abuse costs businesses billions of dollars a year in terms of lost productivity, higher rates of absenteeism, theft and workplace violence as well as increased worker's compensation expenses, insurance costs, turnover and risk of accident. The inclusion of Drug and Alcohol Screening as part of a substance abuse program can be critical to the success of your company.

The U.S. Department of Labor reports the following impact of Alcohol and Drug Abuse on the workplace:

Drug Abuse

- **9.4 million illicit drug users** are currently employed
- Drug users are **3 times more likely to use medical benefits** than other employees
- Alcohol and drug abuse has been estimated to cost American businesses roughly **81 billion dollars in lost productivity**

Alcohol Abuse

- Up to **40% of industrial fatalities** and **47% of industrial injuries** can be linked to alcohol consumption and alcoholism
- Alcoholism is estimated to cause **500 million lost workdays annually**
- Individuals who are current heavy alcohol users are more likely to have **changed employers three or more times in the past year**

To help minimize risk and keep costly alcohol and drug abusers out of your company, InfoMart offers Substance Abuse Solutions to ensure you know if an applicant is abusing drugs or alcohol.
